## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2-3 and 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Applicant's Admitted Prior Arts (figs. 1 and 2).

### ***Allowable Subject Matter***

3. Claims 4-7 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter: Applicant's Admitted Prior Art has failed to teach applicant's claimed invention *"said LEDs are coated on one edge with a light absorbing material"*; *"said LEDs are coated on one edge with a light reflecting material"*.

### ***Response to Amendment***

5. Applicant's arguments filed on 2/9/04 have been fully considered but they are not persuasive. Applicant argues that the Admitted Prior Art does not teach that *the LEDs are not oriented to yield the same overall aspect ratio of the virtual pattern as the master pattern*. The Admitted prior art clearly states "Figs. 1 and 2 shows a prior art virtual

stereoscopic LED" (see, page 1, line 5). On page 1, lines 9 –18, the Admitted Prior Art also disclose, "when the LEDs are activated, light is emitted, as indicated by the darkened LED cells 11. Due to light diffusion, the neighboring LED cells 12 are also illuminated..." However, the Applicant has never claimed that *the LEDs are oriented to yield the same overall aspect ratio of the virtual pattern as the master pattern.*

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
